

Fifth Annual 2023
Multidisciplinary Trauma Symposium:
"The Journey to Recovery from Traumatic Injury"

Save the Date

Purpose:

This event will focus on patient-centered care from scene of the injury, through acute treatment, and on to physical and mental rehabilitation. The goal of the education is to optimize the patients return to the highest level of function upon follow-up, through evidence-based care of a patient-centered multidisciplinary team.

Objectives:

- ✦ Participants will understand the psychological effects and of Traumatic injury as it relates to treatment of the injuries, mental health interventions and recovery.
- ✦ Participants will have the opportunity to review and discuss both adult and pediatric injuries, diagnostic imaging, and treatment interventions.
- ✦ Participants will learn a patient's perspective of traumatic injury, from scene of injury, throughout treatment stages, and the journey to recovery.

Intended Audience:

Nurses, Pharmacists, Physicians, Social Workers, PA's, Psychologists, EMS professionals

All who have an active involvement in Trinity Health's Trauma System are invited.
