

# Trinity Health Oakland Eighth Annual 2026 Multidisciplinary Trauma Symposium

## CUTTING THROUGH THE CHAOS: STRENGTHENING TRAUMA CARE ACROSS THE CONTINUUM

### PURPOSE:

This event will focus on patient-centered care from scene of the injury, through acute treatment, and on to physical and mental rehabilitation. The goal of the education is to optimize the patients return to the highest level of function through evidence-based care of a patient-centered multidisciplinary team.

**Tuesday, September 8, 2026**

**7:45 a.m. - 4:30 p.m. EST**

**Trinity Health Oakland**  
Franco Education Center  
44405 Woodward Ave, Pontiac, MI 48341

### KEYNOTE SPEAKER:

**John Kepros, MD, MBA, FACS, CPE**

Hospital Efficiency, Quality and Safety Consultant

**NAVIGATING THE WORST DAY:  
How AI Enhances Trauma Care Now  
(and Orchestrates Tomorrow)**

### INTENDED AUDIENCE:

Nurses, Physicians, Advanced Practice Providers, EMS and Fire professionals.

All providers who have an active involvement in Trinity Health's Trauma System are invited.

**Questions?** [Andie.young@trinity-health.org](mailto:Andie.young@trinity-health.org)

### KEYNOTE PRESENTATION OBJECTIVES:

1. Recognize specific practical applications where AI mitigates administrative friction and prevents information decay during high-stakes, multidisciplinary handoffs (e.g., prehospital to ED, OR to ICU and discharge).
2. Distinguish the current capabilities of generative AI tools from the proactive, autonomous orchestration of Agentic AI, and understand how this evolution will bridge future gaps in care to create seamless clinical synchrony.
3. Evaluate how existing generative AI and ambient technologies (such as EHR summarization and the ART pilot) enhance diagnostic speed, treatment precision and the overall patient and family experience throughout the trauma continuum.
